

## Special Mallet

Art. Nr: PT5944

### Features

- Mallet with special rubber filler that is elastic in nature, but hard when in use
- For pushing in and fixing vehicle door weatherstrips, fender flares, and bumpers
- Avoid scratching and damaging bumpers, panels, and car body in general

### Specifications

- 1. Hex bumping head**  
Hex shape is able to distribute force evenly
- 2. Ergonomic handle**  
Sturdy and bent upward handle prevents hand to be hurt while bumping
- 3. Special rubber filling**  
The special material is permanently elastic, but becomes hard when being pounded

### Specifications

**CAUTION**

- Always read the instructions carefully before using the tool
- Ensure the working area has adequate lighting
- Keep children and unauthorized persons away from the working area
- Keep working area clean and tidy, dry and free from unrelated materials
- DO NOT allow untrained persons to use this tool kit
- Always wear eye protection that meets OSHA and ANSI Z87.1 standards
- Always wear gloves when working with the tool
- Always wear ear protection
- Disposal: Customers should follow local regulations to handle used/wasted parts

This special mallet helps snap the door weatherstrip into the channel (Fig 1). It can be especially useful if the weatherstrip has metal reinforcement because pushing with thumbs can be an effortful task. This mallet can also be used on pushing bumpers (Fig 2) and fender flares (Fig 3) in place.
