Keep this instruction manual for future reference or for subsequent possessors.

Technical Data

| | |
|-----------------------|---|
| Light Source | High Power SMD LED - main light High Power SMD LED - top light |
| Luminous Power | ca. 120 lumen - main light ca. 80 lumen - top light |
| Operating Time | ca. 3.5H - main light ca. 4.5H - top light |
| Battery Specification | Li-ion 3.7V, 750mAh, 2.78Wh |
| Charging Time | ca. 2.5H |
| Charging Input | DC 5V 1A |
| Degree of Protection | IP 20, IK 07 |
| Operating Temperature | -10°C to +40°C |

Warning

- Do not open the device.
- Do not look directly into the light emitting lamp - Risk of eye injuries!
- Do not operate under direct sunlight or extreme temperature conditions.
- Keep away from children. Children should be supervised in order to insure that they do not play with the device.

Operating & Charging Procedure

- Operating mode as below
 - Press the Switch first time, top light switch on.
 - Press the Switch second time, main light switch on.
 - Press the Switch third time, whole light switch off.
- Switch lamp off while charging.
- The LED of the indicator switches to red during charging.
- If charging is completed, green LED illuminate will turn on.
- If the battery indicator did not light up, please remove the charger and try again.
- The use of a NON-recommended charger can lead to a fire and destroy the lamp.
- Before taking the hand lamp into service for the first time, charge it for 4-5 hours.
- Fully charge the hand lamp before it is stored for a longer period.

Safety Instruction

- Do not use the device if there is damage to the housing, plug or cable. Consult your local authorized specialist.
- Do not open the device. Repair work and replacing the rechargeable battery pack may only be carried out by electricians.
- Carry out cleaning tasks only when the main plug is removed from the main power.
- There is a risk of short-circuit. Repairs on the device may only be carried out by commissioned and trained persons. Please contact your nearest authorized branch.
- Protect the battery against heat, e.g., against continuous intense sunlight, fire, water, and moisture. Danger of explosion.
- If the battery is damaged or not used correctly, fluids can leak from it. Avoid contact with these. Leaking battery fluids can lead to skin irritation or burns. Rinse off with water if you should come into contact. If the fluid gets into your eyes, make sure you get medical help.
- The lamp is not allowed to be placed on the light surface while being used.

Environmental Protection

- The device should not be discarded in the normal household waste under any circumstances.
- Dispose of the device via an authorized disposal center or your communal waste disposal facility. Observe the current applicable regulations. Contact your waste disposal facility in the event of any doubt. Dispose of all packaging materials via an environmentally friendly disposal facility. Rechargeable batteries must not be disposed of in the household waste. Return use rechargeable batteries to your dealer or hand them into a battery collection facility.
